# About Us and Useful Information

## Who we are

Porrima was established in 2008 by a team of professionals from the telecoms industry, based in Exchange Quay, Manchester, near the new bustling hub of MediaCity.

Between us we have over 40 years' experience in sales management, software development, finance and customer service.

We have designed, developed and implemented intelligent and sophisticated sales software solutions for organisations of different sizes, from small one-man bands to large businesses in partnership with the UK mobile networks.

## What is Tariff Analyser

Tariff Analyser is an innovative solution which analyses your voice, text and data usage across all the bills provided.

This assists us in providing a full and comprehensive breakdown of items such as:

- The number of minutes of calls made to particular telephone numbers
- The number of UK and international texts made
- The number and destination of international calls
- Roaming calls made and roaming calls received
- The amount of data used in the UK and abroad

This information can then be used to calculate your average monthly spend on your line rental, calls, text and data.

In turn, based on the analysis findings, we can recommend the most suitable mobile package to you, and, more importantly, save you money.
